

# CONTENTS

- Abstract..... 1
- Introduction ..... 2
  - Study Area ..... 3
  - Methods ..... 3
- Conditions at Wetland NC-5..... 6
- Conditions at Wetland TC-1 ..... 7
- Estimated Ground-Water Levels at Unmeasured Sites..... 10
- Relations Among River Stage, Ground-Water Levels, and Wetland Stage ..... 10
- Summary..... 16
- References ..... 17

## FIGURES

- 1. Map showing location of study area ..... 4
- 2.-9. Graphs showing:
  - 2. Water levels at wetland NC-5, well NC-5, and wells NC-5A through NC-5D from June 15, 1999, to July 6, 2000 ..... 7
  - 3. Two-day lag time between river stage and stage at wetland NC-5..... 8
  - 4. Daily rainfall, river stage, and wetland NC-5 stage..... 8
  - 5. Water levels at wetland TC-1 and wells TC-1B through TC-1D from June 15, 1999, to July 6, 2000..... 9
  - 6. Two-day lag time between river stage and wetland TC-1 stage, June to August of 1999..... 11
  - 7. One-day lag time between river stage and ground water at wetland TC-1..... 11
  - 8. Rainfall, river stage, and wetland TC-1 stage..... 12
  - 9. Wetland TC-1 stage minus river mile 184.15 stage, June 30, 1999, to July 3, 1999..... 15

## TABLES

- 1. Instrumentation, depths, and dates of measurement at wetlands NC-5 and TC-1..... 5
- 2. Highest and lowest water-level altitudes and dates of occurrence for wetland NC-5 ..... 6
- 3. Highest and lowest water-level altitudes and dates of occurrence for wetland TC-1..... 9
- 4. Comparison of measured and estimated water-level changes at wetland NC-5..... 13
- 5. Comparison of measured and estimated water-level changes at wetland TC-1 ..... 14
- 6. Estimated water-level changes at wetland NC-3 ..... 15
